

SVETN

Volume 5 Issue 7

SVETN's PDI workshop, *Middle School Math Strategies That Work*, with Dr. Dan Mulligan was a HUGE success! We partnered with VASCD (Virginia Association for Supervision and Curriculum) to bring this high quality workshop to the area. The Evaluation Summary below says it all. Look for future opportunities similar to this one to be offered to our PDI members.

Evaluation Summary

Middle School Math Strategies That Work
With Dan Mulligan
Abingdon, VA
January 30, 2007

Overall quality of program	98%	2%		

Representative Comments:

- You have given me so much to work with. I hope my administrators will give me time to organize and incorporate as much as is applicable. I had never considered the importance of the format of the test questions presented prior to testing.
- Speaker was fantastic, very knowledgeable and gave us much to take back
- Dan Mulligan tells it like it is and is honest about what is really going on in education today. Excellent and Exciting!
- Dan is by far the most engaging presenter to date. Thanks.
- Great SHOW!
- Thanks. Please share SOL information with Super. of Schools
- One of the best workshops that I have ever attended. Very interesting, motivating, right-on-target speaker. I enthusiastically watched my staff get

fired up about using some of these strategies, and I also have a list of things to do on the administrative end when I go back.

- You were great. We ALL are definitely “fired up”.
- This was the best workshop I’ve ever attended. It was very hands on and interactive.
- I learned a lot and plan to print out the Enhanced Scope & Sequence Plus as soon as I get to school tomorrow.
